

KRATKI FLOKI M RIGHT

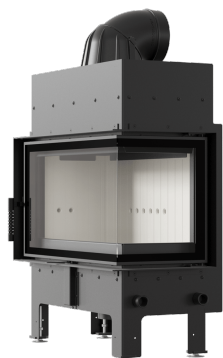

The Floki M is a premium built-in corner fireplace, designed to combine sleek modern aesthetics with outstanding performance. Its frameless glass corner edge finish, enhanced with black glass edging, creates a striking contemporary look that allows an uninterrupted view of the flames.

Inside, the combustion chamber is lined with Kratki's signature heat-intensifying ceramics, boosting heating efficiency while extending the lifespan of the unit. A heavy-duty cast iron grate with ribbed reinforcement ensures durability, while the convenient slide-out ashtray makes cleaning simple.

With primary, secondary, and tertiary combustion – all easily managed through a single air control – the Floki M delivers efficient, clean burning and reliable warmth for years to come.

ADDITIONAL INFORMATION

Weight	175 kg
Dimensions	79.9 × 49.4 × 120.4 cm
CO emissions	0.08%
Colour	Black
Country of manufacture	Poland
Efficiency	84%
Flue pipe diameter	200mm
Fuel	Wood
Heat output	13 kW
Heating capacity	220 – 325m ³
Material	Steel
Warranty	10-year warranty
Ash pan	Yes
Combustion technology	Primary, secondary and tertiary combustion
Door	Standard door
Flue exit	Reversible cast iron top spigot
Label	New

PRODUCT DESCRIPTION

Inside the fireplace chamber, **Kratki's signature ceramic lining** enhances both combustion efficiency and long-term durability. These **heat-intensifying ceramics deliver exceptional thermal performance**, supporting primary and secondary combustion for a cleaner burn and maximum heat output. By maintaining consistently high temperatures within the combustion chamber, the ceramics make the fireplace **easier to operate, improve heat delivery, and significantly reduce soot buildup** in the flue system. Lining the chamber with ceramics provides the **highest level of protection** to the steel structure, extending the lifespan of the fireplace.

The **body of the fireplace** insert is built from **high-quality, thick steel, ensuring exceptional resistance to high**

temperatures. Each unit is precision-welded in a shielded noble gas environment for **superior structural integrity and airtight performance.** Using advanced laser-cutting and CNC bending technology, every steel component is crafted with accuracy and consistency to guarantee a **perfect fit and long-lasting durability.**

Kratki's signature flue connection design stands out for strength and versatility. The **large and thick cast-iron spigot** provides not only **exceptional structural strength**, but also **allows for flexible flue routing.** The two-part rotating spigot can be adjusted to accommodate various flue directions - from the standard vertical outlet to a 90-degree rear exit - making installation simpler and more adaptable to different site conditions.

A large, black-edged design glass door frames the flames beautifully, while **Kratki's superior heat-resistant glass** and air-wash system help keep the viewing window clear. For improved safety and performance, as well as to increase their lifespan, the heat-resistant glass that Kratki uses is of the **highest quality.**

Kratki's signature fireplace grate design is engineered using thick cast iron, featuring re-enforced ribbing and multiple bends to **maximise strength, durability, and long-term performance.**

A robust steel removable ash box ensures easy cleaning and everyday convenience. Floki M has an **extra-large ash pan** allowing for less frequent emptying.

The **comfortable handle** features a solid, **ergonomic design with a modern aesthetic.** Its perforated construction not only enhances the contemporary look but also helps to dissipate heat.

A **single air control** allows precise regulation of **primary, secondary and tertiary airflow.** The added tertiary combustion improves efficiency and provides a cleaner burn.

Direct fresh air system can be installed where only outside air supplies the fire - built-in external air inlet is 125mm diameter.

A set of **adjustable feet** allow for the fireplace to be easily set level and at an exact height.

Built to deliver lasting warmth and reliability, all Kratki wood-burning fireplaces are backed by a **10-year warranty**, reflecting Kratki's commitment to quality, performance, and longevity.
