

KRATKI THOR 8

The Kratki Thor 8 is part of Kratki's premium freestanding fireplace range, crafted to be a true statement piece that brings luxurious design and cutting-edge heating technology to your space. Its expansive glass door, framed with a sleek blackened edge design, creates a bold and modern aesthetic. While it works beautifully in the corner of a room, it's not limited to this placement. This wood-burning fireplace can also be positioned centrally - either with one side against a wall or set on a diagonal, allowing the corner glass to project into the space. Its versatile design and panoramic flame view make it a striking focal point in any modern interior.

This Kratki closed combustion fireplace is built for lasting strength and performance. Its robust steel construction, combined with Kratki's signature thick ceramic internals, ensures exceptional durability and heating performance - a fireplace engineered to deliver reliable warmth for generations.

ADDITIONAL INFORMATION

Weight	160 kg
Dimensions	45.2 × 45.2 × 130.8 cm
CO emissions	0.10%
Colour	Black
Country of manufacture	Poland
Efficiency	83%
Flue pipe diameter	150mm
Fuel	Wood
Heat output	8 – 10 kW
Heating capacity	160 – 250m ³
Material	Steel
Warranty	10-year warranty
Ash pan	Yes
Combustion technology	Primary, secondary and tertiary combustion
Door	Standard door
Flue exit	Top or rear

PRODUCT DESCRIPTION

Inside the fireplace chamber, **Kratki's signature ceramic lining** enhances both combustion efficiency and long-term durability. These heat-intensifying ceramics **deliver exceptional thermal performance**, supporting primary, secondary and tertiary combustion for a **cleaner burn** and **maximum heat output**. By maintaining consistently high temperatures within the combustion chamber, the ceramics make the fireplace **easier to operate, improve heat delivery, and significantly reduce soot buildup** in the flue system. Lining the chamber with ceramics provides the **highest level of protection** to the steel structure, **extending the lifespan** of the fireplace.

The Kratki Thor 8 features **primary, secondary, and tertiary combustion**, all controlled through a **single air control lever** for simple operation.

A **double deflector system enhances combustion efficiency and heat retention**, ensuring optimal warmth with reduced fuel use.

The **body of the fireplace** is built from **high-quality, thick steel**, ensuring exceptional resistance to high temperatures. Each unit is precision-welded in a shielded noble gas environment for superior structural integrity and airtight performance. Using advanced laser-cutting and CNC bending technology, **every steel component is crafted with accuracy and consistency** to guarantee a perfect fit and **long-lasting durability**.

Special attention has been given to the top section of the fireplace, which is crafted from **5 mm thick steel** to ensure exceptional strength and **resistance to high temperatures**.

A large glass door frames the flames beautifully, while **Kratki's superior heat-resistant glass** and air-wash system help keep the viewing window clear. For **improved safety and performance**, as well as to **increase their lifespan**, the heat-resistant glass that Kratki uses is of the highest quality.

Kratki's signature fireplace grate design is engineered using **thick cast iron, featuring re-enforced ribbing and multiple bends** to maximise strength, durability, and **long-term performance**.

The **removable ash box** allows for simple and **easy cleaning**.

The **comfortable handle** features a solid, ergonomic design with a **modern aesthetic**.

Depending on your preferred aesthetic and installation, this freestanding fireplace allows for both **top or rear flue exit**.

Direct fresh air system can be installed where only outside air supplies the fire - built-in external air inlet is 100mm diameter.

The base of the fireplace features a **storage compartment** with a convenient **click-to-open door** for easy access.

A **set of adjustable feet** allow for the fireplace to be easily set level and at an exact height.

Built to deliver lasting warmth and reliability, all Kratki wood-burning fireplaces are backed by a **10-year warranty**, reflecting Kratki's commitment to quality, performance, and longevity.
